

**INTEGRATED
SOLUTION
FOR YOU.**

**DETECTION IS ONLY
THE START.**

When your crews work in hazardous environments, their instrumentation is there to alert them.

Experts you can trust

Organizations across North America use instrumentation on a day-to-day basis to protect their employees from a variety of hazards.

Premier Safety sells & rents all the instrumentation your team needs to keep safe. Have instrumentation that needs to be maintained or serviced? Look no further! Premier Safety is happy to offer service and maintenance by the best technician team in the industry. Whatever safety instruments you may need, our team is ready to partner with you to find a solution to whatever problem you may face.

From proper care to proper usage, asking the right questions can help keep workers safe.

- ▶ How do I select the appropriate instrumentation?
- ▶ Does our instrumentation monitor all necessary hazards?
- ▶ Are our employees using the instrumentation correctly?
- ▶ Do we inspect, test, and calibrate our instrumentation routinely?
- ▶ Is our instrumentation outdated?
